

Computer Games Development CW208

Project Meeting Notes Year IV

Week Starting:	15/11/2021 TO 22/11/2021
Student Name:	Michal Krzyzanowski

Description of work completed since previous meeting
Reading up on an academic paper and summarizing it in my research document.

Tasks to be completed this week

1	Finish summarizing the academic paper: Exploring Game Space Using Survival Analysis by Aaron Isaksen and start reading up and summarizing another paper.
2	Create a prototype level editor. will have a tray containing default shapes (square, rectangle). should be able to rotate these shapes in place too. able to play/pause the simulation.
